

FOGMAKER

FOGMAKER ATTACKS ALL THREE

FOGMAKER VS Dry Chemical

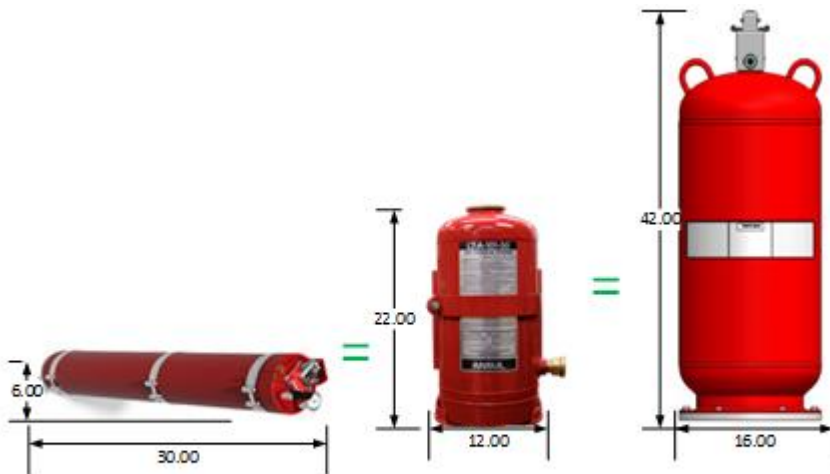

FOGMAKER

- ✓ Environmentally friendly
- ✓ Quick cleanup – just wash and go
- ✓ Little or no residue
- ✓ Quick recharge – right on machine
- ✓ Easy to install/recharge/maintain
- ✓ Install Cylinder in ANY position
- ✓ Will operate if machine Turns Over
- ✓ Pneumatic Detection
- ✓ No Electricity Required for Operation
- ✓ Space Saving

TYPICAL DRY CHEMICAL SYSTEMS

- Expensive to install, recharge and maintain
- Large Cylinders Require More Space
- Messy clean-up
- Respiratory irritant when activated
- Electric detection required
- Susceptible to Unwanted Discharges

Typical **FOGMAKER** Cylinder compared to Typical Dry/Wet Chemical Cylinders
